LIBRARY FOR RAILROAD READING ROOMS.—A committee of the trustees of the Railroad Reading Rooms are making active efforts to collect funds and good literature for starting a circulating library in connection with the work already established there for the comfort and entertainment of the railroad men. The books are to reach not only the railroad employees in this city, but the circulating feature will include the whole of the V. M. and W. O. divisions, the telegraph offices and new signal towers, where the men have unusual opportunities for reading. There are, in many of the homes of Alexandria, hundreds of books and magazines which have been read and laid aside and which can be put to the best use in being donated to the work. It is hoped therefore that all friends and well-wishers of the enterprise will send at once, new or second-hand books, illustrated papers and magazines to the Reading Rooms, or to Stabler's, Allen's or Leadbeater's drug store, or leave word at those places where they may be called for.

THIS BREKEN & FREELY ASSIGNMENT.—A letter from Winston, N. C., says: "The Virginia and North Carolina Construction Company, which is building the Roanoke and Southern railroad, made a settlement to-day with Messrs. Jones & Kerner, lawyers, who are the assignees of Messrs. Brecken, Freely & Newby, late contractors on the above road. The company paid over \$30,000 in cash, which amount was due said firm for the contracts they had finished. By this payment it is thought that the contracting firm will now be in a situation to liquidate the debts that are hanging over them."

Mr. J. R. Carson, of this city, has been in Winston for the past week assisting in the settlement of the affairs of the above-named firm.

POLICE REPORT.—Last night was cloudy and warm until about 12 o'clock, when it became clear.

Harlow a plan and estimate for paving and parking the square on Washington street between King and Cameron. He proposes to use curbed brick, and the cost for the entire work would be about \$3,000.

Swift's Specific (S. S. S.) cured my little boy of hereditary scrofula, which broke out all over his face. For a year he had suffered, and I had given up all hopes of his recovery, when at length I was induced to use S. S. S. After using a few bottles he was entirely cured. Not a symptom now remains of the disease. This was three years ago.
